# About

Eli Francis Christopher, a creative based in Naarm/Melbourne, specializes in videography, stills, and video editing.

With a deep affinity for rhythm-based editing, he uses a combination of music, colour and visual effects to create immersive worlds which aim to represent the complexities of the human condition.

Driven by a passion for creating sentimental moments and nurturing deep connections, he works with a variety of creatives, ensuring that their shared vision is realized with precision and impact.

His work serves as a catalyst for introspection and invites viewers to delve into the layers of emotion and narrative within each piece.
